

Doctor FLAKE

Rider/ Technical information (2012)

- 1 Musician and sometimes 1 lighting engineer. you will know this 3 weeks before the show.
 - 1 or 2 Single room in a 2 categorie (minimum) hotel, close to the main train station, with included breakfast.
 - 1 lunch/dinner before the show.
 - Water, tea, coffee, beer, fruits and a bottle of vodka (**Absolut** please) with apple juice available in the backstage.
- Thanks to boycott big box stores, super&hypermarket outlets. Thanks to support your local craftman and producer!
- 2 towels in the backstage for and after the show

For a good show, Doctor FLAKE needs:

- 1 Runner to pick up DF from the station to the soundcheck and from the club to the hotel.
- 1 Table 2m² (Length: 2m, Width: 1m, Height: 1.10 m)
- 2 Di Box
- 2 Jack/Jack 6.35
- 1 video projector (beamer) + 1 Adapted screen on backstage
- 1 VGA/ VGA cable to connect Doctor FLAKE's Laptop to the beamer. (Connection on Laptop video)
- 2 audio stage return
- 1 voice microphone
- 2 power supplies 220V

PATCHLIST Doctor FLAKE Solo 2010:

TRACK Instrument Mic Insert

- 1 - Mix Left - DI -
- 2 - Mix Right - DI -
- 3 - voice - SM58 -

If video projection is not possible on stage, please let us know at least 1 week prior to the show. However, that would be a shame for the performance if no video files can be played and broadcast.
